Note on RAS:

1. RAS stands for Road Worthiness Assurance Standard and it is a mandatory requirement for all the commercial vehicles to have RAS Sticker to operate in Oil & Gas sector sites.
2. PDO had earlier approved some companies to inspect vehicles and issue RAS stickers on their behalf.
3. OPAL has now taken over this responsibility and have approved several centers including TATI to do the inspection and issue Stickers.
4. OPAL RAS sticker is accepted by all the Oil & Gas companies in Oman and hence one sticker is sufficient to operate the vehicle in any of the Oil & Gas sector company sites in Oman.

* Timing can be arranged according to the customer request.
